

FELTING... Creative Explorations with Ursula Partich

Exploring Texture in Wet Felting

Felt is an art medium that combines fine art and sculpture elements. Class participants will explore ways to create texture and will create a wall or utilitarian piece utilizing wool fiber combined with sheer or handwoven fabrics, cording, wool locks, and/or resists. Have fun playing with color and texture and experience the magical transformation of fibers into a solid piece using only soap, water and agitation. This workshop is for beginners or advanced felters.

Artists Statement I am constantly moved and inspired by the patterns, textures, colors, and moods of the natural environment and how they transform themselves throughout the day and the year, as seen in water, fire, clouds, animals, plants, and rocks. My goal is to foster strong connections between humans and their environment and have therefore chosen plant and animal fibers as my main artistic medium. I am especially drawn to local art materials.

January 21st
Saturday
10am - 2pm

Grace Hudson
Main Street at Clay,
Ukiah

MATERIALS FEE

\$12.00

for fiber and fabric, and all
supplies to be provided by
instructor.

CLASS FEES

Members:

Free plus materials fee

Non-Members:

\$35.00* plus materials fee
