

Dear Members,

Summer vacation for MCAA is ending and programs will start up again in August. I'm sending out the bulletin a bit earlier so you have ample advance notice and opportunity to register.

August has another one of our favorite "Meet the Artist" lectures. There is no charge if you'd just like to attend the lecture, but the artist will offer an optional hands-on portion for a nominal \$4 materials fee.

In September, one of our favorite local artists, Sandy Oppenheimer returns for another fun workshop. Using her method, which she calls, "painting with paper" you will make a portrait of your favorite animal or bird. For inspiration, check her website, www.sandyoppenheimercollage.com and on the top banner click "More" and it will give you a drop down menu with two great options - one is Alphabet Animals and the other is Animals of the World.

Please note that registration for members opens on 7/22. Check the website for the posters with details.

Hope everyone is back from their travels rested, rejuvenated and ready to create some more masterpieces.

Warmest,
Svetlana
