

Meet the Artists Esther Siegel & Spencer Brewer

“Through the Looking Glass for Mixed Minds”

Inside Esther and Spencer’s studio and home you will see many finished pieces, assemblages, as well as collected materials to be used in future creations. Each piece has a story behind it; where the objects came from, their history, why they have been combined the way they have. Esther’s and Spencer’s art works are unique! Their excitement about their work shines through everything. “I have toured their space a few times and it is always fascinating”, Mary Monroe.
