

# Watercolor Imagination Gears, Pipes & Fun Jeannie Vodden

***What is Steampunk?*** Jeannie will begin with the history of the Steampunk genre and will have materials that give an historical perspective along with tools and resource materials that she uses in her art. The workshop will focus on producing something fairly simple that can be finished in one day.

Participants may bring their own inspirations or follow along with Jeannie. She says "I use mostly birds in my work, but anything can be turned into a steampunk theme".

Ms. Vodden is highly regarded as an artist and has recently instructed a class at the Mendocino Art Center to the delight of those participating, leading to the MCAA requesting that she offer this workshop.
