# Assemblage\*

with Artist & Instructor

# Esther Siegel

**\*Assemblage:** The art of assembling disparate elements, often everyday objects- scavenged by the artist or bought specially. It is an artistic form or medium usually created on a defined substrate that consists of three-dimensional elements projecting out from the substrate. It is similar to collage. It is part of the visual arts, and it typically uses found objects, but is not limited to these materials.

"I put together found objects in a way that are pleasing to the eye, harmonious, and most interesting to myself and the viewer. Thus, I am a defined assemblage artist. Just as I have always enjoyed putting together ingredients in the kitchen to create, I love the alchemy of assembling unique combinations of objects in the studio facilitating their new *perfect home*", Esther.
